Look at the equation below. Is the equation true? Why or why not?

\[
\frac{8}{100} + \frac{2}{10} = \frac{28}{100}
\]

It is not because

\[
\frac{8}{100} + \frac{21}{100} = \frac{10}{100}
\]

True \( \frac{8}{100} + \frac{20}{100} = \frac{28}{100} \)

Solve the following problem.

\[
\frac{40}{100} + \frac{36}{100} = \frac{76}{100}
\]
